

USU *petition*

DESTINATION 2036 • JOB LOSS, OUTSOURCING, NO PROTECTION

In September this year the O'Farrell government released a report about its vision for Local Government. Many of the views expressed in the report will have major impacts on employees in Local Government. They include:

- ▶ Resource sharing;
- ▶ Amalgamations;
- ▶ Boundary changes;
- ▶ Outsourcing;
- ▶ Removal and reduction of employment protections;
- ▶ Possible loss of current award and agreement provisions and replacement with inferior federal modern award conditions.

The O'Farrell government has formed an Implementation Steering Committee for Local Government **without** a USU representative.

To Barry O'Farrell, NSW Premier: This petition of certain NSW citizens demands that the Implementation Steering Committee be enlarged to include representation of the USU.

We further demand that your government address the issues of rate pegging, funding and cost shifting as a priority before any other issues are considered in Local Government.
